Simples pedaços de metal podem facilmente converter-se em painéis que contam histórias...
Muitas das vezes, é a dinâmica de certos elementos de arte... a natureza que nos rodeia... a
simplicidade e elegância da geometria... e a cultura que representa os diversos pontos do
globo, que aliciam a nossa criatividade e dão origem os nossos padrões.
E a si, o que o/a inspira?

Simple pieces of metal can easily become panels that tell stories...
Often, it is the dynamics of certain elements of art... the nature that surrounds us... the simplicity
and elegance of geometry... and the culture that represents the various points of the globe, that
appeal to our creativity and give birth to our patterns.
And you, what inspires you?

Rua Senhor dos Perdões, 116, 122
